

First Year Research Form

Johns Hopkins University
Department of Physics and Astronomy

Hopkins ID _____ Student Name _____

Each graduate student is required to complete a research project during the three semesters of their first year and until the end of their second year (or until student finds an official advisor, whichever is first).

This form is to be used to keep track of your research requirements.

If the proposed research advisor does not hold a primary appointment as a tenure-track or research faculty member in the Department of Physics and Astronomy, the form must be co-signed by a PHA faculty member, who will serve as the departmental advisor of record. The relevant department faculty members are listed at <https://physics-astronomy.jhu.edu/people/#filter=.faculty>

The form should be completed, signed, dated and returned to the Academic Affairs team, BLOOMBERG 365 **on or before the deadline date for the semester.**
